for Coughs, Colds, Consumption, Brenchitis, and all Diseases of the Throat and Lungs. This unequaled preparation is paying the usual penalty of merit, and we would warn buyers to be cautious in receiving the assertions of uncorupulous parties claiming to have "the same thing," or "made in the same way," or "just as good."

We are new nearing a season when a Cough Balsam is placed on its merits, and when cold days and nights, and rainy weather, calls upop a cough preparation to prove its efficacy, and no other medicine will answer the same purpose as Williams' Baltom for the immediate relief of the diseases for which it is so confidently recommended. We carnestly ask a trial, and rely upon its merits to prove our assertions that it is the Basy Research to the public for all complaints arising from diseases of the Throat and Lungs. Try it and be convinced of its magical effect. If you cannot obtain it from your druggist, send to us and we will forward it.

THE FIJIAN PLAGUE.

Forty Thousand Deaths in Four Months-Bu ying People Alive. Further information from Fiji coneys still darker accounts of the plague which has recently passed over the new colony. A resident of long standing, writing to a Victoria contemperary, says: "The death rate is not yet made up, but the probability is that 40,000 Fijians died during the four months' plague. The native population of Fiji is now about one-third only of what it was when I landed here about twentyharrowing than those of the sufferings of the victims. In some cases the dead were buried in the earthen floor of the house The burials were harried, and the probability is that some were buried alive. In many instances the busband, wife and women died, and in another all the men." It is interesting to read of the different mental effects produced by the torture of the disease. It is not surprising that "some made fruitless ap peals' to their ancient god. Some in-land tribe, who had only recently em-braced Christianity, considered that the disease was conveyed by their relgious teachers, and they dismissed them and then abandoned their new religion. Among these some were for killing the teachers, but wiser counsel prevailed. It is said that one tribe buried afive one teacher's wife and child, whose husband and father died of the plague, to stop infection. But while some in their dis-tress fell back on their former superstitions, the greater number are said to have borne their calamity with fortitude,

and to have suffered and died under the Cincinnati to New York influence of Christianity.
